*01. Edge & Flow Coffee Table*

## *Edge & Flow Coffee Table*

*A sculptural balance between geometry and softness, the Edge & Flow Coffee Table explores the tension between sharp architectural lines and gentle transitions. Two interlocking volumes create a quiet dialogue of contrast — one defined by precise, angular structure, the other softened by a single fluid curve. The result is a composition that feels grounded, intentional, and subtly dynamic.*

## 02. *Rib Side Nightstand*

## *Rib Side Nightstand*

*Defined by a strong architectural gesture, the Rib Side Nightstand features a singular sculptural rib that runs along the side panels, giving the piece its identity and structure. The integrated pull becomes part of the form itself, blurring the line between function and design. Minimal, precise, and confident in expression.*

### 03. *Fluted Side Nightstand*

## *Fluted Side Nightstand*

*The Fluted Side Nightstand draws inspiration from classical architectural rhythm, reinterpreted through a contemporary lens. Vertical fluting captures light and shadow throughout the day, giving the surface a quiet sense of movement. The form remains minimal and refined, while the detailing introduces depth, texture, and timeless character.*

## 04. *Tray Side Table*

## *Tray Side Table*

*The Tray Side Table is a study in restraint and proportion. A recessed top element, inspired by the form of a tray, sits within a clean geometric frame, creating subtle depth and visual layering. The design focuses on balance, simplicity, and quiet precision, with a refined metal detail that introduces a subtle contrast within the composition.*
